

# Nanny Care Inc.

## San Diego's Elite Nanny Service

**W**endy Pierce, president and founder of Nanny Care, Inc., is a former nanny and a graduate of UCSD. She started Nanny Care to help elite, high-profile families in the financial, entertainment and sports industries. Many of her clients reside in the Rancho Santa Fe and La Jolla areas. Pierce explains that her company is different because it utilizes

professional career nannies who have a minimum of five years experience in childcare. Her nannies, she says, are more like the ones you see on television shows *"Supernanny"* or *"Nanny 911."*

Because Nanny Care only works with the most experienced and professional nannies in the industry, families are matched up with nannies who exactly fit their specific need and values. Only the most qualified nannies are invited to apply. References are thoroughly checked including government background checks, Trustline, current CPR and First Aid certifications and a clean drug test.

Nanny Care gives 100 percent personal service to its clients. Personal cell numbers are provided to families seven days a week, and all clients are treated with the highest level of confidentiality. In addition, a six-month nanny guarantee is offered, and families get to try out each nanny for up to a week to make sure the nanny is a good fit.
